No 911 Outages	No 911 Outages	No 911 Outages

911 Outages/Remote/Community Isolations:

Community Isolation, City of Guerneville, Sonoma County (New / Final)

On 03/04/18 at 1415 hours, the California State Warning Center (CSWC) was notified of a landline 9-1-1 outage impacting 665 service lines in the City of Guerneville, Sonoma County. AT&T advised CA 911 Branch that the event was due to a T3 network failure.

- The Public Safety Answering Point (PSAP), Sonoma County Sheriff's Office (SCSO), was notified and calls were rerouted for service.
- · Cellular service was not impacted.
- The Cal OES Coastal Duty Officer (CDO) and Cal OES Law Duty Officer (LDO) reached out to the county and there were no unmet needs.
- Per the CA 911 Branch, as of 1646 hours, the isolation has been cleared and service has been restored.

Service Interruptions:

· None reported.

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

The unsettled weather pattern will continue through the middle half of the month. This means periods of cool and wet weather.

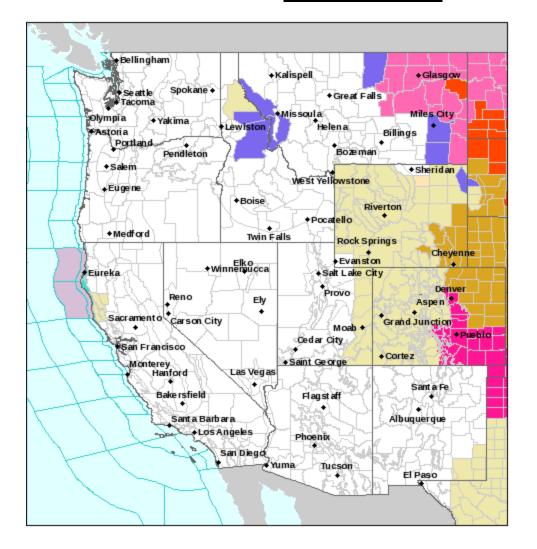

Ridging will provide drier conditions today and Tuesday. Wind speeds will be light with normal humidity readings. The ridge will break down on Wednesday and lead into an unsettled weather period through at least the earlier half of next week. Snow levels will initially be higher Wednesday through Saturday but transition to lower elevations Sunday into next week due to a stronger Pacific storm system. The Sacramento Valley will be the least favored in terms of precipitation due to the type of flow the models are projecting. The higher, west facing slopes will be favored the most. Temperatures will generally be near normal during a large portion of this period but trend below normal by early next week. Humidity will trend higher during the unsettled period with periods of stronger S to SW winds.

SOUTHERN CALIFORNIA

A weak ridge of high pressure over California will bring significant warming along with minimum humidity in the teens to most of the region through Wednesday. Maximum temperatures will be around 5 degrees above normal today, with mid 40s to mid 50s across the mountains and mid 60s to mid 70s in the valleys. Local northeast winds of 10 to 20 mph with gusts to 35 mph will surface across the mountains and below the canyons and passes of Southern California through Tuesday morning. Zonal flow will bring a cooling trend and an increase in humidity to the region Thursday through this weekend. Westerly winds of 20 to 30 mph with gusts to 50 mph will surface across the wind prone mountain and desert areas Thursday through this weekend. Scattered showers with light rainfall totals will move across the area this weekend.

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Missions

• 2018-LAW-45521, 3/04/2018, 1010 hours: International Emergency Rescue Coordination Center (IERCC) advised of an activation of an In-Reach device. The devise was sounding at coordinates 38° 43 minutes 44 seconds N by -119° 57 minutes 16 seconds W. IERCC attempted to communicate with the activated device with negative results. LDO contact Alpine County Sheriff's Department (ACSD) and advised them of the device activation. IERCC advised the LDO of the current coordinates 38° 43 minutes 39 seconds N by -119° 57 minutes 23 seconds W. Information passed to ACSD. Update: 03/04/18, 1100 hrs, requested by ACSD to provide current coordinates, 38° 43 minutes 30.8 seconds N by -119° 57 minutes 55.2 seconds W. Update: 03/04/18, 1105 hrs, requested by ACSD to provide current coordinates, 38° 43 minutes 29.5 seconds N by -119° 58 minutes .09 seconds W. Update: 03/04/18, 1120 hrs, requested by ACSD to provide current coordinates, 38° 43 minutes 27 seconds N by -119° 58 minutes 12 seconds W. Update: 03/04/18, 1150 hrs, requested by ACSD to provide current coordinates, 38° 43 minutes 18 seconds N by -119° 58 minutes 27 seconds W. Update: 03/04/18, 1230 hrs, IERCC advised LDO that R/O of device had contacted them and advised this was an accidental activation. Mission Closed.

Cal OES MISSION TASKING

Cal OES Missions

- 2018-IREOC-45244: Caltrans to remove dead and dying trees along highways in Kern, Tulare, Fresno, Madera, Mariposa, Tuolumne, Calaveras, Butte, Plumas, Sierra, Shasta, and Lassen counties.
- 2018-Southern-44905: Communications support, Baker to Vegas Annual Challenge Cup, San Bernardino County (Coordinating)
- 2017-SOC-44098: CalRecycle Debris Management Team in Ventura County
- 2017-SOC-43821: DTSC to remove household hazardous waste from over 500 residential lots in Ventura County (On Scene)
- 2017-Inland-42559: Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene)

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
